### LAND FOR SALE.

*A CALL.*  
The Democratic Executive Committee of the Eleventh Congressional District of Kentucky is requested to meet in person or by proxy at Barbourville on July 11th, 1901, for the purpose of fixing a method, time and place of nominating a Democratic candidate for Congress, to be voted for at the November election.

1m R. R. Conover.

Mr. J. P. Beard and wife want to Green county last week. Mrs. Beard will remain several days.

Len. G. Broughton, a noted Georgia evangelist, was attacked in a barbershop at Albany, in that state, by the chief of Police of the city and struck several licks with a rawhide whip. The minister had severely criticised Officer, R. N. Westbrook, from the pulpit. We venture the assertion that the minister was right in his declarations, and it is a pity that a minister's calling often prevents a bully from getting a sound thrashing.

### DISTURBANCE OF BUSINESS.

It has always been a part of the Rep. party to call on the voters that if the Democrats are successful they will proceed so recklessly with tariff changes to disturb business and do awful things generally. For months in Congress it came out that the same method would be used as was prepared for the campaign now fusion is. It will do no harm to consider this phase of the question practically, in the light of the situation as it is. In the first place, even if the Democratic elect their own men to the president and majority of the house of representatives, the senate would still be Republican, even if the Democrats carried the legislatures of all the doubtful states that elect senators, who will be bound to support the Rep. party in the next session. The Democrats, when in power, however much they would like to re-invest, taxation, must raise enough revenue to carry on the government and more than half the revenue must come from duties on imports. When the Rep. party decided that an income tax, as levied by the Democrats in 1894, was unconstitutional that decision shut out all possibility of reducing the tariff below what would raise enough revenue for the government honestly administered.

It remains, therefore, to arrange the tariff laws so that they will burden the taxpayers as little as possible, and yet produce enough revenue. There are several schedules that would doubtless receive heroic treatment if the Democratic had full power. The high tariff that gives these corporations a monopoly of the American market, would be repealed or greatly modified. These articles which are sold by the corporations a cheaper abroad than here would be brought down to a level, so far as the cost of production goes, from the trusts to reduce prices. The steel trust is the most conspicuous of the trusts that is sheltered by the tariff, and the duty on nails, barbed wire, steel rails and perhaps some other products of the steel trust, will be cut in case placed upon the free-lint cottons, axes, plows, tables, iron, hardware, nailers, sewing machines, harness, meat choppers, bacon, gumbowls, rates, adiunos, saws, shovels, and n. The man, almost from the first, who has been most successful with the weight of his bare nature there is the open course of retreat, honorable, praiseworthy, judicious retreat for both himself and the woman—a fact which he thankfully realizes when the woman, who has been his helpmeet, has left him and returned to her parents.

How much more often, however, are the circumstances reversed and the sad, sonorous drama of Tarquin and Lucretia enacted in real life?

and reproach in his voice:

"Why, m—my d—dear, who else did you expect?"

"SHE TEMPTED ME AND I FELL."

The tragedian, I. D. Trotter, a few days ago, in which he played the man of that species himself, was the author of a speech which has been copied in many of the papers. In it he keeps out of a eleventh story of the seductive features of similar cases, which, from time to time, occupy the columns of the press. For in a better form, in body in which he attempts to justify his actions, he says:

"I have for sale 50 acres of land, more or less, all in timber, adjoining the Rock Creek farm, three-quarters of a mile from Columbia. For particulars call on the undersigned."

Mr. R. Lee Suter, a well-known politician and lawyer, of Louisville, was accidentally shot and killed last Sunday morning about 4 o'clock. He was with a fishing party a few miles from the city and was asleep when the fatal shot was fired by a man drunk, who was with companions, and who had been on a night's carousal. About all the punishment the guilty party will be subjected to will be a fine when in reality he should serve a term in the penitentiary.

Democratic newspaper devoted to the interests of the city of Columbia and the people of Adair and adjacent counties.

Entered at the Columbia Post Office as second-class mail matter.

WED JULY 6, 1904.

The Democratic National Convention will be called to order in St. Louis to-day.

If every thing is harmonious at St. Louis the next President of the United States will a Democrat.

Dan Emmett, the composer of the song, "Dixie," died at Mt. Vernon, Ohio, last week. He was eighty-six years old.

Republican managers now admit that the Wisconsin split makes probable the defeat of their electoral ticket in that State in November.

The Democratic leaders who are arriving in St. Louis are giving serious thought to the platform to be adopted by the Democratic National Convention. It is their desire that it be short and straightforward.

Mrs. Mattie Loumiller, who two years ago collected \$50,000 life insurance on the death of her husband, concluded last week to swap it for a strolling musician who was playing over the country. The marriage occurred at Hazleton, Ind., where the easy pleased widow resided.

The Democrats of Missouri, in convention at Joplin, endorsed Senator F. M. Cockrell for the presidential nomination. Senator Stone, Gov. Dooley, Congressman Clark and Congressman DeArmond were elected delegates-at-large to the national convention.

There was no nomination made in the Eighth Democratic Congressional convention, held at Shelbyville. After 180 ballots had been taken, result same as at the start, the convention adjourned and a primary will be called. The vote stood, Gilbert, 36; Helm, 29 and Moore, 24.

In order to conform to the new Kentucky law prohibiting the co-education of whites and blacks, the trustees of Berea college are arranging for the transfer of their colored students to other institutions. The younger pupils will be sent to the colored public schools, and those of higher grades to Fisk University, Nashville, or some similar institution.

Next week we will place at the head of our editorial columns the names of the St. Louis nominees. The ticket will doubtless be acceptable to all Democrats who will do every thing in their power to elect it in November. There has been some talk during the past week to the effect that Mr. Cleveland may receive the nomination, but with the thoughtful such an idea is not entertained. In our judgment the name of Parker, McClellan or Olney will head the ticket, and the party will be satisfied with either of them.

The possibility of an attempt to stampede the coming Democratic National Convention to former President Cleveland was the chief topic of discussion among the delegates who arrived in St. Louis last Friday. Friends of Judge Parker expressed the opinion that the Cleveland movement would help their candidate as it would have the effect of driving many delegates to the support of Parker, thus insuring him a larger vote on the early ballots than they had been counting upon. Gorman and Folk are being mentioned as "dark horse" candidates. An intimate friend of Senator Gorman denied that the Marylander favored Cleveland's candidacy and said that, on the contrary, Mr. Gorman bitterly opposed it.

There is but one thing for the National Democratic convention to do and that is to nominate a clean man and do it harmoniously. The Louisville Times tells what ought to be done in the following: "Already Democrats from all parts of the country are turning their steps toward St. Louis, where, on Wednesday, next, begins the convention that will either condemn the party to another four years of dissension and defeat or lead to splendid and continued success. The convention will have the power to command victory or deliberately to choose disaster. There will be presented to it the names of men who in every element of strength are stronger two-fold than the nominee of the Republican party. There is the opportunity, as well as the necessity, of making a platform that will speak openly and fearlessly where the Republican platform has chosen evasion and silence on matters touching directly the welfare of the individual voter and of the country in its international relations. There is the absolute need of answering the Republicans' demand that the South be singled out for attack because it has endeavored to preserve its civilization from the taint of an inferior race with the declaration that the Democratic party makes war on no section. There is lack neither of men nor issues, should the convention will to make wise use of them. It will be necessary to look no further than Judge Alton Brooks Parker for a nominee who can be elected. The revision of the tariff, the curbing of the trusts, the return to honesty in the administration of all departments of government, and the overthrow of Roosevelt constitute issues on which the party is agreed as one man. With Parker the nominee, on a platform made up of such planks, there can be no fear of defeat. It is for the convention to say."

The St. Louis Republic in closing an editorial on the coming work of the national Democratic convention which convenes today in St. Louis: "Normally the country is Democratic. All things being equal, there are more voters disposed toward Democracy than toward Republicanism. Let the Democratic convention but afford the whole Democracy a chance to act, and the day will be carried without a single Republican vote. Name a man in whom Democrats may repose faith and announce broad and genuine Democratic principles, and the normal voting strength of the party will be amply sufficient for success. Or, negatively considered, let the Democratic leadership merely refrain from repelling Democrats and the day is ours. But let Democracy, in its presentation and its platform, demonstrate its possession of a broad purpose beneficial to the people as a whole and a powerful accession of Republicans will swell the protest and opposition to Roosevelt and ring rule. In the light of the opportunity awaiting united Democracy factual dissensions and selfish leaderships seem small. There should be no regard over precedence when the gate is wide enough for all abreast."

About twelve months ago an investment company of New York engaged in correspondence with a number of Lancaster citizens, urging them to place funds in their hands to speculate in wheat and other articles, the company getting a small per cent. for their trouble. For several months those who invested received large profits. This lured many others to invest, until some of the best business men in the town became involved. A letter from the concern announced to each of its customers that the firm was financially wrecked and that probably later on would resume business. Those who invested from Lancaster are out from \$10,000 to \$12,000.

The National Prohibition Convention, held in Indianapolis, last week, nominated Silas C. Swallow, of Pennsylvania, for President and Geo. W. Carroll, of Texas, for Vice President. General Miles was tendered the nomination for first place, but declined.

CAMPBELLSVILLE.

During a light shower on Tuesday evening last, the ray of the sun shone through a rift in the cloud, in the west showing a rainbow. A second rainbow in the eastern horizon, below which was a fainter one, which only added to the glory of the former. Their beauty can better be imagined than described. "A rainbow in the morning is the Shepherd's warning. While a rainbow at night is the Shepherd's delight." According to this we are to have fair weather. Let us see if the love of the Shepherd's come true.

In the valley of the Rolling fork river, near Taylor county line, on a road owned by Mr. Malone, the back bone of a prehistoric animal was found to be a mastodon was discovered and examined a few days ago. It was 21 feet in length. Attention was called to it by a man returning from the earth. The excavation of the animal was perpendicular and a hole 21 feet deep was required to excavate it. There was some smaller bones. This relic of the dead century has created an absorbing interest in the neighborhood. Mr. Malone has been offered \$50 for it, but declined taking it.

Mariad, at the county clerk's office, on the 27th inst., Rev. Jesse M. Gaddie, of Larue county, aged 82; to Miss Salie James, of Marion county, aged 37. Why the couple selected Campbellsville is not known. Gaddie is a man of great character. The ceremony was performed with great dignity and emphasis by County Judge J. W. Cloyd. The happy couple marched to the home of the bride in the direction of Larue county.

Mr. Taylor, the newly appointed postmaster at this place, took possession of the office on Friday. It is understood that Mr. Gowdy, an ex-postmaster, will act as an assistant, will take charge of delivery for a time. The outgoing Postmaster Mr. Wm. Hobson, aided by his father, Mr. Jesse Hobson have for years run the office to the entire satisfaction of the public. Indeed the office could not have been managed better. Mr. Taylor will doubtless make an efficient postmaster.

Mrs. Pearl Fausett and her accomplished daughter, Miss Ethel, were visiting relatives and friends here last week. In an oratorical contest at Lebanon recently, Miss Ethel was awarded a prize of \$5. They reside at Bardstown.

A petition is in circulation asking for an election in the South Campbellsville school district. The petitioners want a loan license. The contest will likely be a hot one and fought over every inch of ground.

PARKER AND SUCCESS

As Senator Gorman points out there has been no instance since adoption of the two-thirds rule where it has operated to prevent the nomination of the candidate having a clear majority of the convention. Of the 994 votes at the St. Louis convention, Judge Parker is assured of 480 on the first ballot. The changing of the vote of certain State delegates for favorite sons will bring him on the second ballot enough votes to bring his total within striking distance of the necessary two-thirds. After that it will be but a question of ratifying his nomination.

His defeat is impossible, and the Democratic party, with him as its nominee, has the fairest chance of success before it in twelve years. Once nominated, Judge Parker will not be lacking in allies who can bring to his support Democrats of all shades of belief, in support of principles in which the people believe. The South is committed to him absolutely. New York will be his for the fighting. With New York will go New Jersey and Connecticut. The Republicans have already contributed Wisconsin and Colorado, and the field is fair and the favor not lacking in Indiana. The certainty of success is dependent solely on his nomination, and his nomination is assured, if the Democracy at St. Louis seek the most available man—Louisville Times.

FAIRBANKS AND INDIANA.

Does the nomination of Fairbanks as President Roosevelt's running mate take Indiana out of the doubtful column?

The nomination was made largely upon the theory that it would operate to that end, and it may.

Fairbanks has always been strong in his home State. Where party organization is the controlling factor in politics, he has long been the acknowledged head of the Republican machine; where dollars are mighty, he has them and has known how to use them; where corporate influences have a way of making themselves felt, he has been the mouth piece of the corporations.

One argument advanced by those who sought to prevent his nomination was that the clashing of the ambitions of men who aspire to his place in the Senate might engender factional strife to a degree that would be dangerous. There will, of course, be a merry scrambling after that tugs, but no man who knows Fairbanks expects him to permit this to come at a time when it will hurt the Republican party.

If there is one thing certain about Charles Warren Fairbanks, it is that he has no idea of letting go his hold upon that Senate seat until he has a firm grip upon the vice Presidency. Fairbanks is not troubled with needless shies or unimportant ideals. Why should he turn loose a good thing on a mere promise?

He will not. The men who want to succeed him are already beginning their merry campaign, but there can be no cut-throat business in it so long as a vacuum exists. It will be waged in a way to add to, not to subtract from, the total of Republican votes.

We do not know how it looks to our esteemed friend, Tom Teggart, but at this distance the Fairbanks nomination seems to clinch Indiana for the Republican ticket. But the same other northern states whose votes can be secured for the Democratic, and will be—Atlanta Constitution.

Hon. J. A. McKenzie died at his home in Christian county Saturday morning of a stroke before last of apoplexy. Among the great men of Kentucky, the name of McKenzie ought easily to have ranked with the greatest. He was a stout, robust, statesman, orator and wit, and many of his public speeches will be remembered as long as the English language is spoken. His last years were clouded by ill health, culminating finally in almost total blindness; but neither the brightness of his magnificent mind, nor the winning sweetness of his personality were ever dimmed by physical misfortune.—Glasgow Times.

Will somebody kindly point to us where the "declaration of principles" in the Chicago platform comes in. The principles seem to have been lost in the egotistic push.

AN OLD SAW GAINED.—Once upon a time two men were riding in an automobile, bound for a certain town, which neither of them had ever visited.

"Have we not made a mistake in the road?" asked one of the other.

"I am sure we are right," was the answer.

Soon they came to a hill which the automobile refused to climb.

"What is the matter?" asked the first at first.

"Our power has given out," answered the other, "and we must stay here until assistance arrives."

Moral—We may be sure that we are right, but not able to go ahead.

An Ohio exchange speaks of a man who always pays his local paper two years in advance. As a result he has never been sick in his life, never had corns on his toes or toothache, his potatoes never rust, the frost never kill's his pears, his babes never cry at night, his wife never scolds and he succeeded in serving two terms on the school board without being criticized.

And there is another thing which we have noticed in regard to the man who is liberal with his home paper. We have never known a candidate to be defeated for office who is prompt to announce his candidacy in the country paper and who planks down the cash in advance for the same. It's a sure thing and brings good luck. A little cash in advance invested with your county paper is worth a barrel put out among "workers" who only work the candidate himself, which they do to a queen's taste.

Question of great importance to the Jewish church is to come before the annual conference of American Rabbis, to be held in Louisville this week. Chief among them is the movement to change the J-wish Sabbath from Saturday to Sunday.

IMPROVED TRAIN SERVICE.

Commencing Sunday June 26, Kentucky's popular line, the Henderson, Frankfort, Louisville and Southern, will be safe and fast. Day service between Lexington and St. Louis in each direction, and will improve the time and equipment generally of all trains between these points.

These daily trains will be operated each direction on the following safe schedules between Louisville and St. Louis:

Plenty of ventilation, but no air blowing directly on the patient.

Everything fresh and clean, with the purpose of saving and plenty of warm water.

Each individual disease requires a peculiar diet of its own.

Tobacco should never be used in the sick room.

Use kindness, but firmness, toward the patient.

To assuage thirst and cure feverishness, apple tea is a notable sick drink. It is made by slicing raw apples into a jug, filling up the jug with boiling water, adding sugar to taste, and sweetening to taste. When cold this concoction will be found pleasingly tart and refreshing.

Nowadays doctors forbid patients to eat any kind of sweet food, but recommend them to eat a dozen walnuts a day. There is no doubt walnuts are more useful to gouty subjects, or in case of chronic rheumatism.
